A collection of manuscripts relating to the South Georgia Survey Expedition of 1955-56, which was bequeathed to the Library by Louis Charles Baume (1919-93). A keen mountaineer and collector of literature relating to mountaineering and polar exploration, Baume was elected to the Alpine Club in 1952 and took part in the survey of South Georgia under the leadership of Duncan Carse. The manuscript material also includes papers, 1924-27, of Robert Wyllie Lloyd.

An obituary of Louis Baume by George Spencely is in *The Alpine Journal*, 100 (1995), 339-40.

The printed items in the bequest consist mainly of periodical issues and official reports and can be found in the Baume printed book collection.

The photographic material consists of c. 300 photographs taken by a fellow member of the South Georgia expedition, George Spencely, and is kept in the Library's Photographs collection (Phot.sm.21).

The maps are held in the Map Library.

*Bequeathed, 1994.*

### **Louis Baume**

- 1-2. Diaries of South Georgia Survey, 1955-56.
  1. August 22 1955-January 14<sup>th</sup> 1956
